Introduction:

After an overwhelming response & request from the Industry and stakeholders we are glad to announce our 2nd Interactive CGD Vendor Meet Cum exhibition in Ahmedabad on 25th September 2019. This would be a One Day Event focusing on providing a solution driven platform to all the vendors, understanding their issues and identifying the root cause of the problem and providing appropriate solutions with the help of the governing bodies..

The Petroleum and Natural Gas Regulatory Board (PNGRB) has allocated an additional 50 gas distribution licenses in 124 districts, in the 10th round of bidding this year. This has extended the CGD coverage to 70 per cent of India's population.

Thus, there will be a simultaneous development of massive CGD infrastructure of providing PNG connection to close to five crore homes, setting up about 8,000 to 10,000 CNG stations and laying of 25,000 km to 30,000 km of steel pipeline in the next eight years. This requires close coordination among all the stakeholders – government, PNGRB, authorities, transporters and gas suppliers, CGD entities and vendors/contractors.

It would require out-of-the-box measures to overcome the challenges coming in the way of fast-track development of infrastructure. Nearly seven out of 10 people in India would directly or indirectly experience the benefit from the combined impact of the development of CGD networks in their homes, businesses or vehicles. It is expected to deliver PNG connection to 5 crore homes, setting up 10,000 CNG stations; and laying 25,000 km to 30,000 km of steel pipelines by CGD entities alone in the next few years bringing an investment of about \$20 billion to \$25 billion. These are mind-boggling numbers are capable of taking India to a new level of development. Indian vendors, contractors, small and medium-scale entrepreneurs, start-ups, etc., would be key beneficiaries of the CGD development.

The Expo offers an excellent platform to discuss future technologies and opportunities in the sector, Diligentia with these kinds of business meets aims to serve the industry better by getting the policy makers and decision makers of the industry together over a platform to deliberate all critical issues creating bottlenecks in the development of CGD infrastructure and provide timely solutions. This meet would provide an unparalleled networking opportunity & increase your visibility among the end users- industries, governments, new entrants in CGD, Valve, Dispenser, Compressor companies, etc. you could reach your target audience easily with the help of our connects and promotions.

The event has been developed to focus on the issues through panel discussions, Q&As from the forerunners of CGD Industry in the state.

Why Should You Exhibit?

- More than 50 exhibitors covering the entire spectrum of the Natural Gas value Chain (PNG,CNG&LNG) industry.
- Network with hundreds of trade visitors all looking for new products and suppliers
